
Curriculum Specialists, Teachers, School Administrators, Superintendents

PSU has something for everyone!

Learn to make instructional adjustments to ensure rigorous and engaging curriculum and improve student outcomes.

What is the Professional Learning Track?

PowerSchool's Professional Learning track is a series of courses that focus on the training and development of educators, including best practices and modeling using standards, as well as data and strategies to give insight into professional practice, and engaging students to promote learning in today's classrooms. Come hear from our thought leaders and industry experts.

Choose from courses in our Professional Learning Track and other hands-on courses to round out your week at PSU! The following are just a few of the 2018 courses to check out:

- **Professional Learning: Aligning Instructional Resources**
- **Professional Learning: Constructed Response Plans**
- **Professional Learning: Formative Assessments**

For more courses and complete descriptions, please see the Course Catalog for the event of your choice.
