

*Enhance Your Skills at*

**PowerSchool University**

*PowerSchool's Premier  
User Training Conference*

PowerSchool University (PSU) is now for **BusinessPLUS**, **eFinancePLUS**, **eSchoolPLUS** and **Cognos** users! Receive hands-on instruction directly in the software from expert trainers during this four-day user training event. Courses are designed for Administrators, Technology Directors, and Business Personnel.

At PSU you can:

### Learn

Learn valuable solutions, strategies, and techniques for everyday responsibilities

### Network

Interact with fellow educators and develop lasting peer support networks

### Get Advice

Meet one-on-one with a trainer for advice regarding your own data

### Discover

Discover PowerSchool's assessment, registration, special education, and student information system solutions

**Courses offered at PSU include:**

### eFinancePLUS

This bootcamp is focused on examining the general budgeting, payroll processing, purchase order, and other processes within eFinancePLUS.

### eSchoolPLUS

Explore Teacher Access Center, Whiteboard, Behavior and more with a focus on the changes in 4.1 where appropriate.

### BusinessPLUS

Discover ways to automate your financial, human resources, and payroll processes with workflow. Understand HR & Payroll processes from beginning to end.

### Cognos

Examine how the power of Cognos Analytics (Cognos 11) can transform how your users interact with data. Courses include data story telling through dashboards, Report Studio Beginner/Advanced topics, Cognos Administration and more!

Equip yourself with the proper training in the current version of the tools you use to maximize your efficiency, save time and steps, and get more done. PowerSchool University (PSU) provides district and site-based users with hands-on training to help them effectively use the full feature set and capabilities of the PowerSchool education technology platform. Each course has been specially developed for the participant's role at the school or district.

In addition, you will meet fellow users in the education community, to build and expand your peer support group and share ideas, experiences, and best practices. You'll have abundant opportunities to network with staff, trainers, and other users during each of your classes and at every meal.

*"As a whole, PSU is the most efficient and well organized tech conference I have ever attended. It was clear to me that it was well thought out and the details were well planned. All of the PSU staff was knowledgeable, friendly and able to address questions appropriately."*
