Creating Positive Classroom Learning Environments and Engaging with Families and Trauma

Assessing Social Emotional Learning

### Keynote Speakers

Bill Bass currently serves as the Innovation Coordinator for Instructional Technology, Information, Library Media, and Federal Programs in the Parkway School District in St. Louis, MO, where he leads the district library program, instructional technology, grants, and innovation. Bill is an award-winning educator, international speaker, and former president of ISTE Board of Directors. He has written numerous articles, book chapters, and has authored three books on the role of technology in education.

## PSU Educators Boston 2022

---

A Hamburg-born, New York-based keynote speaker, trainer, education consultant and former superintendent, Dr. Richard Hughes draws upon more than two decades of experience. Student achievement and educational opportunities significantly improved under his leadership in each of his school districts. In addition to leadership, Rich's current focus is helping schools and educators recognize the need for a Social Emotional Learning lens in all educational practices. In recognition of his professional achievements, he was named 2017 Superintendent of the Year by the New York State Association for Computers and Technologies in Education and was selected as a Lexington Education Leadership Award Fellow.
