RELEASE NOTES

PowerSchool SMS 8.0 Report Package

This document describes changes to the reports in the PowerSchool SMS 8.0 Report Package.

Download the PowerSchool SMS 8.0 Report Package from *Pearson PowerSource* (https://powersource.pearsonschoolsystems.com/dir/3380). For information about uploading the Report Package to PowerSchool SMS, see *PowerSchool SMS eDocs - Administration Manual*, available by clicking **Help** > **Contents** on any PowerSchool SMS 8.0 page when signed in with a district administrator role.

For detailed information about each PowerSchool SMS report, refer to *PowerSchool SMS eDocs - Administration Manual > Appendices > Report Package Reports.*

Reports in this package

The PowerSchool SMS 8.0 Report Package contains the latest versions of all "report package" reports (that is, reports not built into Chancery SMS or PowerSchool SMS) from Chancery SMS 6.6.8 to PowerSchool SMS version 8.0 [Table 1].

Note: If your district uses a PowerSchool SMS system that has been converted to Permanent Record (PR), you will also need to download the 80 PR RptPckg.zip file from PowerSource; this package contains the Cumulative GPA Report and the Student Transcript Reports for Permanent Record environments.

A number of reports have been updated to work with the new schemas in PowerSchool SMS 8.0 and performance has been optimized [see Table 1: *Reports in Report Package*]. For information about reports for which other changes have been made, see [p. 5].

Known issue

Student Contacts Roster

(SMSMAINT-20638)

When a contact's work phone number is not formatted correctly, the number does not appear in the report.

Workaround: Correct the phone number formatting, save the record, and rerun the report.
