Essential Questions:
- What is digital transformation? What does it look like?
- How can these conceptual frameworks and models support the development of effective lessons that meet the needs of today's learner?

Guiding Questions	Reflection
STEP 1: TPACK Consider how TPACK could support a shared vision for technology integration as well as impact lesson design. http://goo.gl/1LHjuu	
STEP 2: SAMR Model How might the SAMR Model influence the decisions educators make as they plan activities for their students? http://goo.gl/2iNEh	

Cumulative Task:

Think about the activities in relationship to the essential questions:

- What is digital transformation? What does it look like?

- How can these conceptual frameworks and models support the development of effective lessons that meet the needs of today's learner?

Use chart paper and markers to create a visual representation of what your team has learned. Be prepared to present and share.
