

Essential Questions:

- How do we prepare for disasters?
- What are some emotional, physical, mental, and financial effects of disasters?
- What role do human strength and resilience play in recovering from disasters?

The goal of this station is to apply understanding of primary and secondary succession to the analysis of an ecologist's perspective on repairing a landscape destroyed by a natural disaster.

Station 1

An Ecologist's Perspective

Materials:

- Instruction Sheet
- Data Collection Sheet
- Station 1 Student Sheet: An Ecologist's Perspective
- Resources
 - "Primary and Secondary Succession"
 - "Repairing the Post-Tsunami Landscape: An Ecologist's Perspective"
