

## Section Display Settings

Use settings on the My Account page to configure the order and names of sections in CIITS.

## Renaming and Reordering Sections

Change the order in which your sections appear in the lesson planner and Course/Section menus. You can also rename sections to differentiate periods of the same course. Only you can see these changes.

1. In the upper-right corner of the page, click **My Account**
2. Click the Sections & Rosters tab

3. To change the section display order, edit the order assigned to each section in the Order column
4. To change how the section name appears, edit the section name in the Section column

Changes save automatically as you update the order and name.
